# HAVAL H6

# FROM GREAT WALL, TO THE WORLD

Haval stands as the global SUV specialist, engineered for excellence, built for the world. As a key brand under the rapidly expanding GWM Group, we fuse top-tier components, advanced safety features, and cutting-edge technology from across the globe. Our DNA is defined by passion, precision, and an unshakable commitment to what matters most to our customers. With over 9 million vehicles sold in 60+ countries, and crowned China's #1 SUV brand for 12 consecutive years, we are more than just an automobile manufacturer, we are a movement.

SAZGAR was established in 1991 as a public limited company. It has more than 1000 employees. SAZGAR quickly became a household name in the automobile industry, with over 30 years of experience SAZGAR is proud to be the first electric 3-wheeler manufacturer in Pakistan and the only OEM from Pakistan to export its indigenous vehicles to 25+ countries including Japan.

# BRAND VALUE

Part of Forbes The World's 2000 Largest Public Companies, Great Wall Motors continues to receive impressive accolades consistently. In 2019, Haval was named as one of the BrandZ Top 100 Most Valuable Chinese Brands. In 2023, GWM was awarded as the "Best Car Brand" in Chile. Furthermore, the Haval H6 won the "Best Hybrid Model" and "Lowest Cost for Hybrid Models" awards in Brazil in 2024.

China's SUV Sales Crown for 12 Consecutive Years

The First Chinese SUV Brand with Sales Volume of 9 Million

Global SUV Brand

# HAVAL TECHNOLOGY CENTER

HAVAL Technology Center covers an area of 250,000 m<sup>2</sup>, with a floor area of 260,000 m<sup>2</sup>. HAVAL has a R&D team of more than 7,000 people, including over 100 overseas technical experts, and 14 types of large-scale comprehensive laboratories such as environmental wind tunnel laboratory, high-altitude environment simulation laboratory, EMC laboratory and vehicle four-wheel drive NVH semi-anechoic laboratory.

## WHAT'S NEW

A NEW REVAMPED FRONT GRILL  
AND NEW TAILLIGHT DESIGN

INTERNET OF VEHICLE  
REMOTE CONTROL (H6 PHEV)

50W WIRELESS CHARGING

19 INCH ALLOY RIMS AND  
WHEELS IN ALL VARIANTS

0 TO 100 IN 4.8 SECONDS! (H6 PHEV)

INCREASED HP AND TORQUE

HEATED STEERING WHEEL

WIRELESS ANDROID AUTO  
APPLE CARPLAY

THE WORLD'S FIRST EVER  
9-SPEED DCT TRANSMISSION (H6 2.0)

540-DEGREE PARKING CAMERA  
(WITH TRANSPARENT CHASSIS)

INDUCTIVE TAILGATE IN ALL VARIANTS

HEATED, VENTILATED, & MEMORY SEATS

INFOTAINMENT SCREEN UPGRADED FROM  
12.3 INCHES TO 14.6 INCHES

REAR COLLISION WARNING IN ALL VARIANTS

**POWERFUL**  
AESTHETIC

## PAKISTAN'S BEST WARRANTY TERMS

## QUALITY AND SAFETY YOU TRUST

The H6 is equipped with paramount safety, with six airbags (including SRS dual front airbags, dual-side airbags, and side-curtain airbags).

## **GWM'S L.E.M.O.N PLATFORM:** *A \$1 BILLION TECHNOLOGY INITIATIVE*

At the core of our engineering excellence lies the GWM L.E.M.O.N platform: a next-generation, multi-mode hybrid system crafted for versatility. This platform seamlessly adapts to diverse driving demands; offering a balance of power, fuel economy, quiet performance, and responsive comfort across every terrain.

The Haval H6, built on this intelligent architecture, features a full steel body with reinforced strength, delivering uncompromising protection wherever your journey leads.

# SETTING THE GLOBAL STANDARD OF SAFETY

The GWM Haval H6 is engineered with intelligent safety technology that goes beyond expectations. Equipped with a suite of Advanced Driver Assistance Systems (ADAS), it actively monitors and responds to road conditions, enhancing both driver awareness and vehicle control.

From city streets to open highways, enjoy every drive with elevated comfort and peace of mind, knowing that smart safety is always protective.

**Intelligent AWD System** can realize transient response and torque distribution between systems within 110ms, realize 1200NM load distribution and transmission capacity, and make the torque ratio of front and rear axles up to 50/50.

	Horsepower	Max Torque
1.5T	182HP	275Nm
2.0T	235HP	385Nm
HEV	240HP (Combined)	530Nm (Combined)
PHEV	360HP (Combined)	760Nm (Combined)

## INTRODUCING THE WORLD'S FIRST EVER 9 SPEED DCT TRANSMISSION

The **H6 2.0T** engine achieves 0-100km/h is just 7.3 seconds, reduced fuel consumption, lesser emissions, quietness ensured by reduction in shaft torsional vibration (by 30%), and 9-speed high efficiency gear ratio.

**H6 2.0T Engine**

**H6 2.0T Transmission**

The **H6 1.5T** ensures an optimal balance between power and efficiency, with a 2nd generation wet 7DCT dual-clutch transmission.

The **H6 HEV** features a 1.5T hybrid-specific engine paired with a Two-Speed Direct Hybrid Transmission for smoother performance and enhanced reliability. Its 1.67kWh battery and enging delivers 530 Nm of torque.

The **H6 PHEV** also features a 1.5T hybrid-specific engine, with a 19kWh battery delivering an impressive 760Nm of torque, ensuring instant acceleration and a powerful, refined drive.

**H6 1.5T Engine**

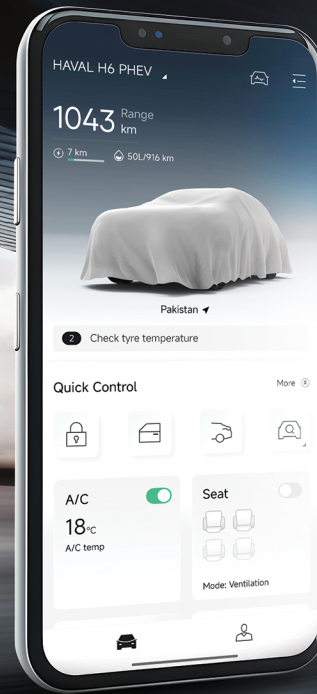

**H6 1.5T Transmission**

# H6 PHEV

## OPERATE YOUR VEHICLE WITH THE GWM APP

With 4G connectivity built-in to the H6 PHEV, up to 40+ vehicle functions can be toggled right from your phone app\*!

## 4G REMOTE CONTROL FUNCTIONS

POWER UP YOUR DEVICES  
WITH UP TO 3.3KW SUPPORT

34KW FAST DC CHARGING  
FROM 30% TO 80% IN JUST 28 MINUTES!  
(6.6KW AC CHARGING FROM 15% TO 100% IN 3 HOURS)

NEDC EV RANGE: 100KM  
COMPREHENSIVE RANGE: 1043KM

## INTRODUCING Hi4 TECHNOLOGY

**Hi4**, the new intelligent 4WD electric hybrid technology from GWM, ensures performance of a four-wheel drive and the energy consumption of a two-wheel drive, ensuring the best possible efficiency in all conditions.

Driving modes include pure electric mode, electric priority mode, and intelligent hybrid mode.

### Hi4 INTELLIGENT AWD CONTROL SYSTEM

Real-time road monitoring system, distributing torque between axles to optimize your driving pleasure.

### PURE ELECTRIC

The **Hi4** system switches to optimal driving modes intelligently such as the pure EV mode, based on driving conditions.

### PARALLEL AWD

Using dual axles, the power redistribution is seamless and efficient, resulting in more power and reduced energy consumption at the same time.

## Hi4 INTELLIGENT DRIVING MODES

### CITY DRIVING

With sufficient battery, pure electric rear 2WD mode is engaged. If the battery is insufficient, Series Mode\* is engaged to ensure an efficient drive.

### INCLINED/UPHILL ROADS

With sufficient battery, pure electric AWD is engaged. With insufficient battery, power gears are engaged to supply the required power to the vehicle.

### HIGH-SPEED CRUISE DRIVING

When cruising at high speeds, especially on highways, the economy gear (engine) is engaged, resulting in the most energy efficient output while conserving electric power for other low-speed conditions.

### HIGH-SPEED ACCELERATION/INCLINE

Parallel 2WD\* and Parallel AWD\* modes are automatically engaged in instances where high-speed inclined terrains are involved, on hilly or steep roads.

### DECELERATED BRAKING SCENARIOS

In instances of decelerated braking, single-axis or dual-axis energy recovery modes are enabled ensuring the efficiency of the motor and vehicle as a whole.

\*Parallel 2WD: The front electric motor and the engine powered up to achieve the desired output.

\*Parallel AWD: The front and rear electric motors, and the engine powered up to achieve the desired output.

\*Series Mode: The engine delivers power to the rear motor via the front motor, with the rear motor powering the wheels.
